

Go Solar. Save Money. No Rooftop Panels Required.

Community Solar programs allow utility customers to tap into solar energy and save on their annual electricity cost without having to install solar panels.

1 Subscribe to a local Nexamp solar farm

2 Add clean, solar energy to your utility grid

3 Receive credits from your utility and save on your annual electricity cost

THE BENEFITS:

Save up to 10% on your electricity cost.

No installation of any equipment on your roof or property.

Your utility will stay the same, and you can continue using a third-party supplier

No upfront costs or long-term contracts that lock you in for years.

Support solar power and demonstrate your commitment to renewable energy.

No credit check.

FREQUENTLY ASKED QUESTIONS

Am I eligible to enroll?

Nexamp is currently accepting subscribers who are residential or small business customers of Central Hudson, National Grid, NYSEG, Orange & Rockland, and Rochester Gas & Electric. In accordance with New York State policy, utility customers receiving net metering credits from solar panels on their property are not eligible for community solar.

What is my guaranteed discount?

You are guaranteed to receive a 10% discount on the credits you earn from your solar farm share. Nexamp will calculate how many credits you need to offset your annual electricity costs.

How is my solar allocation determined?

As part of the subscription process, you will provide your utility account number or latest utility bill to Nexamp so that we can analyze your monthly electricity usage. Nexamp uses that information to allocate a share of the solar farm that should earn you enough credits to offset nearly all of your annual electricity charges.

Am I guaranteed a discount for a specified period of time?

You are guaranteed a 10% discount on your credits for 25 years, however, you may cancel your contract at any time. It may take up to 90 days for the cancellation to go into effect.

Do I earn the same number of credits every month?

Great question! For Central Hudson, NYSEG, Orange & Rockland and Rochester Gas & Electric subscribers, the number of credits will vary per month based on your electricity usage.

Is there a penalty for canceling my subscription?

No. There are no penalties or termination fees. Should you choose to leave the program, it may take up to 90 days for the cancellation to go into effect.

Do I get two bills?

Yes (for now). Nexamp will send you a monthly invoice for your share of the farm, and you'll continue to receive your regular electricity bill, minus your earned credits. You can sign up for automatic bill pay with Nexamp, which can alleviate any extra work.

Is Nexamp an energy supplier?

No. Nexamp is a distributed generator of electricity to the grid. You pay Nexamp for the credits that appear on your bill based on the electricity generated by your share of the solar farm.

Does this mean I no longer receive power from my local utility?

No. Your power will still be delivered to your home by the same utility – Nexamp will just feed energy into the utility grid. If there's ever a problem or outage, you'll get the exact same service from the exact same people.

Do I have to switch my utility or my energy supplier?

No. If you are purchasing power through a CCA or from a third-party energy supplier or ESCO, you can continue to do so. Enrolling in community solar is a good way to reduce your electricity costs without impacting your relationship with your existing energy supplier.
